SUMMARY

Software Developer with hands-on experience in full-stack development, REST APIs, and AWS. Strong problem-solving skills with experience building, testing, and deploying web applications.

SKILLS

Programming Languages	Java, Python, JavaScript, SQL
Frontend	React.js, HTML, CSS
Backend	Node.js, Express.js, REST APIs
AI & LLM	AI Agents, AI Chatbots, LLM APIs, Prompt Engineering, RAG
Databases	MongoDB, SQL
Cloud & DevOps	AWS (EC2, S3), Docker
Tools	Git, GitHub, Postman, VS Code
Coursework	DSA, OOPs, Operating Systems, Computer Networks, SDLC
Soft Skills	Problem Solving, Teamwork, Leadership, Communication

WORK EXPERIENCE

Gamotech Solutions Pvt. Ltd. Jan 2026 - Present
Software Developer Intern

- Developed and maintained reusable UI components using React.js for web application features and user interfaces.
- Developed and integrated RESTful APIs using Node.js and Express.js for application data, backend functionality, and third-party service integrations.
- Developed AI-powered agents and chatbot solutions using LLM APIs for customer support, lead capture, knowledge retrieval, and business process automation.
- Implemented AI-driven workflows for customer interactions, lead management, CRM integration, and automated email and WhatsApp follow-ups.
- Tested and debugged APIs using Postman, resolved application issues, and assisted with deployment on AWS EC2 and S3.

Infosys Springboard Oct 2025 - Jan 2026
Software Developer Intern

- Worked on hands-on full-stack development projects involving frontend development, backend APIs, and database integration.
- Applied programming and problem-solving skills to complete development assignments and practical coding assessments.
- Used Git for version control and followed basic development and deployment practices while working on projects.

PROJECTS

RestroBazaar – Freelance Project **Live Project**

Description: Developed a multi-vendor eCommerce platform for restaurant and food packaging supplies, with separate functionality for vendors, customers, and administrators.

Technologies: React.js, Node.js, Express.js, MongoDB, AWS

- Developed responsive frontend interfaces using React.js for product browsing, categories, vendor products, and customer interactions.
- Built RESTful APIs using Node.js and Express.js for products, vendors, users, orders, and application data.

- Integrated MongoDB for managing products, vendor information, users, and order-related data.
- Developed and integrated an admin panel for managing vendors, products, users, and platform operations.
- Worked on frontend-backend integration and deployment of the application on AWS.

AKHD Media – Freelance Project

Live Project

Description: Developed a MERN-based video selling platform where users can browse, purchase, and access licensed video content through the platform.

Technologies: MongoDB, Express.js, React.js, Node.js, AWS, Amazon S3

- Developed responsive frontend interfaces using React.js for browsing videos, categories, video details, and purchasing content.
- Built RESTful APIs using Node.js and Express.js for video listings, users, purchases, and application functionality.
- Implemented video purchase workflow where purchased video access links are delivered to the user's email.
- Integrated MongoDB for managing users, video content, purchase details, and application data.
- Used Amazon S3 for video storage and deployed the application on AWS.
- Developed and integrated an admin panel for managing videos, users, purchases, and platform operations.

Smart Agriculture – IoT and ML-Based Farming Solution

Academic Project

Description: Developed a smart farming system using IoT sensors to collect real-time soil data and Machine Learning to predict suitable crops and recommend fertilizers. Integrated an AI-powered chatbot to assist farmers with agriculture-related queries and provide relevant farming guidance.

Technologies: Python, IoT, Machine Learning, ThingSpeak, AI Chatbot

- Collected and monitored real-time soil data using IoT sensors and ThingSpeak.
- Applied Machine Learning techniques to predict suitable crops based on soil conditions.
- Developed a fertilizer recommendation system based on collected soil parameters.
- Integrated an AI-powered chatbot to assist farmers with agriculture-related queries and guidance.
- Achieved 85% prediction accuracy for crop recommendations.

EDUCATION

Bachelor of Engineering in Information Technology Amrutvahini College of Engineering, Maharashtra Savitribai Phule Pune University, CGPA: 7.89 / 10.00	2021 - 2025
HSC, Class XII Agasti College Akole, Maharashtra, 61.67%	2019 - 2021
SSC, Class X Kalaseshwar Vidyalaya Secondary School, Maharashtra, 83.60%	2018 - 2019

CERTIFICATIONS

• AWS Cloud Practitioner – AWS	Certificate
• Database and SQL – Infosys Springboard	Certificate

ACHIEVEMENTS

• Winner, Amrut Expo 2025 – Project Exhibition and Competition	Certificate
